

Searching for the Catastrophe Signal

By John Michael Greer

In his new book, *Searching for the Catastrophe Signal*, social theorist and philosopher John Michael Greer explores the idea that we are living in a time of unprecedented global crisis. Greer argues that we are facing a

series of converging crises, including climate change, resource depletion, and economic inequality, that threaten to overwhelm our civilization.

Searching for the Catastrophe Signal: The Origins of the Intergovernmental Panel on Climate Change

Greer's book is not a doomsday prophecy. Instead, it is a call to action. He argues that we need to wake up to the reality of the crises we face and start taking action to address them. He offers a number of practical suggestions for how we can do this, including reducing our consumption, investing in renewable energy, and supporting local food systems.

Searching for the Catastrophe Signal is a challenging and thought-provoking book. It is essential reading for anyone who wants to understand the challenges we face and what we can do to address them.

Reviews

"John Michael Greer is one of the most clear-sighted and original thinkers of our time. In Searching for the Catastrophe Signal, he offers a brilliant

analysis of the multiple crises we face and a compelling vision for how we can create a more sustainable and just future." — Naomi Klein, author of *The Shock Doctrine*

"Greer's book is a must-read for anyone who wants to understand the challenges of our time. He offers a clear-eyed assessment of the risks we face and a thoughtful roadmap for how we can avoid them." — David Korten, author of *The Great Turning*

"Searching for the Catastrophe Signal is a tour de force. Greer combines deep scholarship with a keen eye for the present and a profound understanding of the future. This book is essential reading for anyone who cares about the fate of our planet." — Richard Heinberg, author of *The End of Growth*

About the Author

John Michael Greer is a social theorist, philosopher, and author. He is the author of numerous books, including *The Long Descent*, *The Ecotechnic Future*, and *The Wealth of Nature*. He lives in Ashland, Oregon.
