## PHYSICIAN ASSISTANT PERSONAL STATEMENT EXAMPLE

When I was a child, I watched a movie about the famous surgeon Howard Jones and his assistant, John Clark. The two worked seamlessly together to perform lifesaving procedures, and I was very amazed by the way that the two worked in sync not only when standard procedures were going as planned, but also when things went wrong and they had to improvise. Their story is what inspired me to pursue studies in the medical field, and I hope to be able to complete this Physician Assistant program in order to further my career in the field and provide the best in healthcare to my future patients.

During college, I was the President of the Young Physicians team, and this experience allowed me to pursue opportunities to learn more about the field of medicine and what it meant to be a physician's assistant. I have visited clinics in various hospitals around the county and shadowed many different types of physicians during office visits as well as inpatient and outpatient procedures. My goal is to integrate the skills that I have gained from my experiences in the medical field with the knowledge that I will gain from this Physician Assistant program in order to assist physicians in bringing the best outcomes to the patient.

Completing this Physician Assistant program will give me the opportunity to fulfill my dream of becoming a certified PA, where I will be able to take an active role in patient care and disease management. Through the coursework that I will complete in this program, I will gain a more holistic view of disease systems and their treatment strategies. Additionally, I will be able to enhance my clinical skills through rigorous practice and mentored activities, which will enhance my understanding of the field. I believe that the training that is offered by this Physician Assistant program will allow me to become a seamless and integral part of the medical team in the future.

Dear [Mr./Ms./Mx.] [Hiring Manager's Last Name],

I am writing to apply for the part-time Medical Assistant position at DC Clinic, as advertised on [medicaljobsusa.com](#). I am a certified AAMA Medical Assistant, with 6+ years of professional experience in patient liaison, record management, reception and general office administration.

I have worked at a range of medical facilities, from private physician office settings to large, state-run hospitals. In my recent position as the Medical and Services Assistant at the George Washington University Hospital in Washington, DC, I was trained in administering injections, recording EKG's, patient scheduling, medical coding (ICD9/10 and NCPT) and phlebotomy/blood draws.

I am certified in Basic Life Support (BLS)/CPR with adult, child and infants, and am highly skilled in using the MS Office Suite and Electronic Health Records (EHR) software. Specific highlights of my career include:

- Enhancing patient relations and reducing critical wait times
- Developing cost-effective administrative procedures
- Training staff members in patient interaction and communication

I have a Diploma in Medical Assisting Services from Harzing University. I'm confident that my extensive medical and administrative skills would be of benefit to this position and to DC Clinic. I have attached a copy of my resume with this email. If you need any further information, please call me at (123) 456-7895.

Thank you for your time and consideration.

Sincerely,

[Your Name]
