The Core Principles of Logotherapy

Logotherapy is based on the belief that the primary motivation in human life is the search for meaning. Frankl argues that people are not simply driven by pleasure or power, but by the need to find a purpose or direction in their lives. When people are unable to find meaning in their lives, they may experience feelings of emptiness, boredom, and despair.

Instead, we must take ownership of our lives and make the best of the opportunities we have.
